

SSDC class 2nd-June-2021

Created Website with:

- Tailwindcss
- tailblocks

Photos:

- source.unsplash
- unsplash
- pexels
- pixabay

Api for avatar:

<https://joeschmoe.io/>

Read about (just intro) :

- Tailwind
- Bootstarp
- Material Ui
- Native Base
- Emmet

Websites for color selection:

- <https://uicolorpicker.com/>
- <https://coolors.co/>

Task:

Read about github pages and Make a static portfolio page and host it on <your_username>.github.io

To practice data structures and algorithm:

<https://practice.geeksforgeeks.org/courses/Workshop-DSA?vC=1>

<https://www.codingninjas.com/codestudio/guided-paths/data-structures-algorithms>

Next things we will try to cover:

Website basic structure

React-native app

React js + firebase web app

ML(face recognition/photo to text) App android java

MERN project
